

I would like to express my satisfaction with K-LOVE RADIO station and it's programming. I enjoy enjoy the music that uplifts me when I'm down. I can get it here in Merced or hear it on my way to Modesto or on my way to Fresno. Many people in my community listen to this station regularly. We even play it during working hours at my job. The kind of music that is played is something all the family can enjoy. I don't have to worry that something will come on that will be offensive. I would be very disappointed if this station went to a low power FM station. It would be hard to listen to and frustrating. I know I speak for many others who listen to the station regularly and support it with monthly contributions. Our community benefits from the positive messages conveyed through the music whereas the other stations are not unique like this one. I hope to hear this station loud and clear for a long time to come. Thank you.
